

Bob Hoover in Concert

*Musician *Comedian *Ventriloquist

"A Wild and Wacky World" (Music & Comedy)

We're living in a day and age when we need hope, and positive reinforcement more than ever in our lives. It's amazing how much a smile, a good laugh or a word of encouragement can help.

I've always believed that laughter and music are key ingredients for the enjoyment of life. So I use both of these elements when I present my concerts that I call "**Bob Hoover in Concert**", which is a combination of music, stand-up comedy and ventriloquism.

These concerts are a fun, entertaining, toe tappin', hand clappin', belly laughin' good time. All my concerts are "kid friendly", and even though my comedy is aimed at the adults, it's something I find the kids laughing and giggling at just as much.

It is good clean and energetic entertainment that anyone can enjoy.

I tailor make the concerts to fit your situation, whether it's a Special Event for both adults and kids, or just adults.
